

Your Edge in MEV Trading

Extract Profits Before the Market Moves

How to start!

To activate your own SMARTS account:

1. Contact the person who shared this two-pager with you.
2. Ask for their personal referral link.
3. Register using Trust Wallet, Phantom Wallet, or email.
4. You can start with as little as \$20 (1-7 day contract) or \$100+ (30-100 day contracts).

If you're interested in building a network, SMARTS offers attractive incentives and bonus contracts for active team leaders.

Want to learn more before getting started?

Watch our 20-minute video presentation. Includes a live demonstration of the SMARTS MEV bot in action, showing how it captures profit in real time:

What is SMARTS?

SMARTS is a high-performance, fully automated MEV trading platform that identifies and captures value from inefficiencies in blockchain transactions – in real time. The platform utilizes advanced mempool tracking, AI-based decision logic, and precise execution to ensure optimal profit, **all without any manual effort.**

How does it work?

By connecting your wallet and activating the SMARTS MEV bot, the system automatically begins analyzing and executing strategies such as sandwich trading and sniping – **24/7** – with a documented **daily return of 0.6% to 1.7%.**

Key Features

- Mempool Intelligence – real-time monitoring of transactions before they reach the blockchain
- Automated MEV strategies – no coding required
- High-frequency sniping – millisecond-level precision on every trade
- Optimization of gas fees and trade positioning
- Private mempools and stealth execution for secure trading
- Full control and transparency through a personal dashboard

Returns and Security

- 100% non-custodial – you retain full control of your funds
- Daily and weekly withdrawals available from \$10
- No lock-in – withdraw your principal at any time.
- Smart risk management – only verified arbitrage opportunities are executed
- Transparent results – view trades and profits in real time

Who is it for?

- Investors seeking passive income with a low entry threshold (starting from \$20)
- Network builders and affiliate marketers – earn commissions up to 20 levels deep
- Professionals looking to offer advanced trading tools without technical complexity

Leader Bonuses

Team leaders with momentum gain access to exclusive incentive programs – bonus packages of \$500+ are available based on volume and activity.

SMARTS rewards both activity and results – with extra benefits for those who build teams.

Example: What can happen with \$100 in a 100-day SMARTS contract with daily compounding?

The table below illustrates how an investment of \$100 can grow to over \$270 if you activate a 100-day SMARTS contract with **1% daily return and automatic daily reinvestment**.

This is a theoretical example, but it shows the power of daily compounding when you let the SMARTS MEV bot work for you – fully automated.

- Full reinvestment of profits daily
- Total 170.5% profit over 100 days
- All returns are displayed and tracked in your personal dashboard

Projection for 100 days

Investment value	Total days / Business days
\$270.48	100 / 100
Total interest / earnings	Daily interest rate
\$170.48	1%
Percentage profit	End date
170.5%	October 27, 2025
	Initial balance on July 19, 2025
	\$100.00

Consistent Performance – Now with BSC Optimization

The graph on the left shows the average daily return from the SMARTS MEV Bot over the past 30 days. Since the upgrade on Binance Smart Chain (BSC) on June 29, the daily gross returns have stabilized well **above 1%, with several days reaching as high as 1.7%.**

The white line **marks the 1% level** – the same rate used in our compounding example. When the platform consistently delivers this in practice, it confirms the potential for rapid growth through daily reinvestment.

Disclaimer: The figures shown represent gross returns. Actual net results may vary depending on the chosen contract type — whether 1-day, 7-day, 30-day, or the 100-day option with its 80/20 profit split.
